

SQUARE ELECTRICAL BOX

THE SQUARE ELECTRICAL BOX

The Square Electrical Boxes offer a wide range of flexibility to meet a wide variety of commercial office requirements. They provide electrical outlets for power and mounting plates for communications jacks and ports. The Boxes are available in 3 different profiles; regular, low profile and ultra low profile. Our ultra low profile is specially designed for RAF applications with limited heights, such as retrofits and heritage buildings.

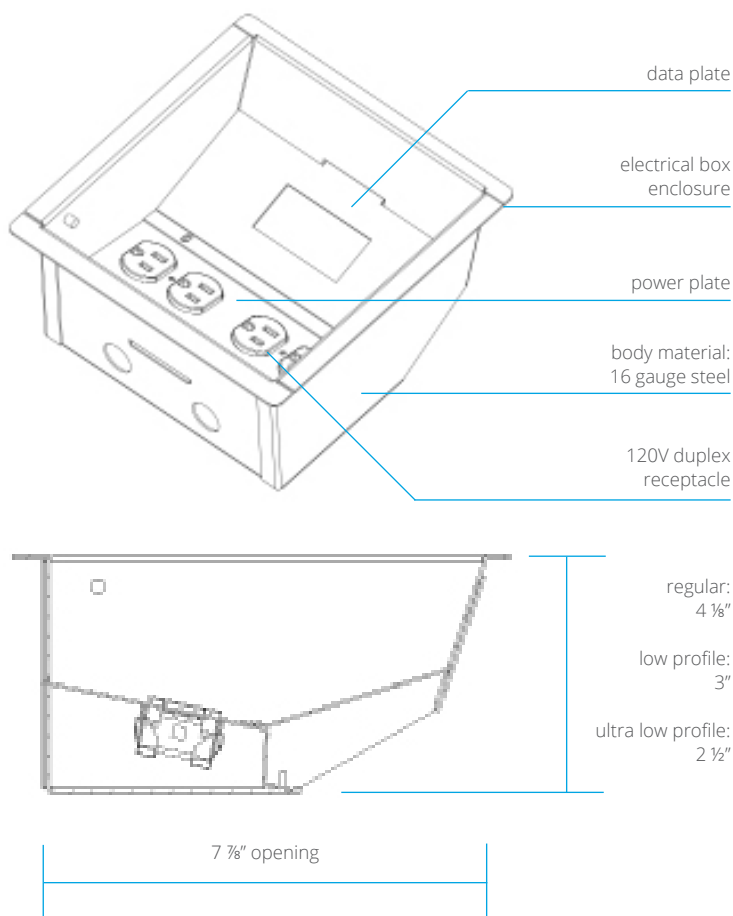

FEATURES

- CSA/UL approved for up to 4 duplex receptacles - 15A or 20A, 120V
- Steel box housing; reinforced heavy-duty steel lid with 5 cable openings
- Hinged lid accommodates carpet inserts, removable without tools
- Optional thumb screws lock box into place in floor panel - no fasteners needed
- Extra grommets side openings for future cable requirements
- Mounting plates for data/telephone connectors
- Anti-tip feature ensures lid does not hinge open under foot traffic
- Available in 8" x 8" and 10" x 10"
- Profiles from 4 1/4" (standard) to 2 1/2" (ultra low profile)

PRODUCT DETAILS

CREATE A MORE COMFORTABLE SPACE TO CONDUCT BUSINESS.

Global IFS provides fully integrated, high-performing, adaptable flooring solutions that are cost-effective, sustainable, and deliver value across the full life cycle of your building.

Our team of engineers have created a wide variety of Raised Access Flooring (RAF), Under-Floor Air Distribution (UFAD), and Modular Power Distribution (MPD) solutions that will meet the demands of any building. The end result is a more comfortable, functional building that is efficient, easy to operate, highly advanced and serves as the foundation for your success.
